

P-4-E

Date, weather, seasons

Nombre _____

Fecha _____ Período _____

ESPAÑOL 1-PRESENTACIÓN ORAL 1: EL PRONÓSTICO

Hemos estado estudiando el vocabulario del tiempo y los días de la semana. Cuando miramos a un pronosticador, observamos que siempre se introduce, menciona qué día es, y qué tiempo hace.

¡A TI TE TOCA!

Tu deber es dar un pronóstico del tiempo en frente de la clase o por un video. Tienes que decir:

- an appropriate "saludo" - 5pts
- introduced yourself and the 4 (four!) call letters of your TV station and city. -10pts
- give the day, date, and time. -10pts
- use appropriate and differentiated weather expressions. -15pts
- close with an appropriate "despedida" -5pts
- "una introducción" to the next reporter who is talking about the next news story. -5pts

Tu nota dependerá completamente en el uso del vocab y la pronunciación.

If you are choosing to do the assignment as a "skit" in class, you must include a Power Point or Prezi with images relevant to the presentation.

If you are choosing to do the assignment as a "video", you may want to shoot outside during different types of weather or stand in front of a map.

¡¡Sean creativos!!

50pts Summative
